

Oneka Ridge Golf Course – Senior Men's League – Tee It Forward Initiative

- **We now offer the option to play from the forward (red) tees based on what tees are best suited towards the player's average driving distance.**
- **If you choose to play from the forward (red) tees, you must inform the pro shop ahead of time so that your scores will be handicapped appropriately.**
- **Choosing this option is a season long commitment to play from the forward (red) tees, not a choice by round or by hole.**
- **Players who play the forward (red) tees may play in the same foursome as others who play from the gold tees (reminder to keep the pace of play up).**
- **There will not be a separate division for those who play from the forward (red) tees from those who play from the gold tees. The USGA / MGA handicap system and slope ratings are in place to provide reasonably equal footing regardless of tees played.**
- **There are no restrictions of age for senior men's league members who choose to play from the forward (red) tees. Again, the choice should be made based on your average driving distance (see first note above).**
