James Hill 602-741-8324  
Casey Murdoch 602-803-1748

Modern Aerofication Methods provides deep aerification and conventional aerification to the turf industry. We started serving Arizona in 1987 with the deep drills and have expanded substantially since then adding deep tine aerification for greens, fairways, and tees. We also provide verticutting and clean up on fairways and roughs. All services can be completed from 4 hours to a day depending on the service.

Golf Creations is a Certified Builder member of the Golf Course Builders Association of America and a licensed Better Billy Bunker installer. Founded in 1987, Golf Creations is a full-service golf course construction and renovation firm. We offer a complete package of services, including project management, cost analysis, rough grading, shaping, feature construction, drainage installation, seedbed preparation and grassing.

**Heritage Links ~**  
**Oscar Rodriguez**  
**Tom Bush**

**951-830-2878**  
**480-353-7529**

Heritage Links is a "Certified Builder" by the Golf Course Builders Association of America. Being a certified builder indicates that Heritage Links is one of the few companies at the pinnacle of the industry and has achieved the highest standard within the golf course construction industry over the past few years.

The golf courses Heritage Links has been associated with have been some of the best-known and the most recognizable in the world. Heritage Links was the recipient of the "Builders Excellence Award" by Golf Industry in 2007 and 2008 for their work associated with Liberty National and Chambers Bay. Their work at the Trump Doral Resort-Blue Monster Course – is enjoyed by golfers around the world along with the players of the PGA Tour each year at the Cadillac Championship. The dedication to the industry is something Heritage Links has realized is important and is proud of having over 75 years of golf course experience within the management of the company. This dedication is also shown in the attention to detail of every project approached and the quality of workmanship that has been completed on their golf courses.

**480-797-3295**

Moon Valley Nurseries is a family-owned company consisting of 28 locations across the Southwest. We were founded in 1995 and have become the largest Specimen tree nursery in the country. We currently have farming, retail, and landscaping operations in Arizona, Nevada, California, and Texas.

We offer landscape design, delivery, and installation services performed by our professional and dedicated nursery staff. We also offer professional tree care services such as trimming, fertilizing, and removal in Arizona.

Our passion is providing high quality trees and plants to our customers and letting them experience the Moon Valley Difference. As the grower, we continue to set the industry standard for the highest quality, hardiest, and most stunning products. Our mission is to grow, sell, and install the best trees, shrubs, and plants available on this planet with the best service possible from our highly trained and friendly team.

Visit us at [www.moonvalleynurseries.com](http://www.moonvalleynurseries.com) to find a nursery near you.

**Pure Seed ~ Justin Balich**

**602-316-0336**

#### About Pure Seed

Our "research first" approach will never be compromised. With private research facilities in Oregon and North Carolina and global research efforts across the world, Pure Seed is dedicated to developing the world's best turf varieties. After developing the highest quality varieties, the next step is assuring that there is quality seed production to match it. Our network of companies share the common vision to develop, produce, and market solution-based products focused on reducing environmental and economic pressure while building tolerance to specific stresses. Specialized traits in: Gray Leaf Spot, Brown Patch, Stem Rust, Heat and Drought, Traffic, Glyphosate Tolerance, Speed of Establishment, Salt, Shade and Turf Quality.

#### **Seed Research of Oregon ~ Mike Hills & Leah Brilman, PhD**

**623-680-3439**

Seed Research of Oregon was founded in 1983 with the goal of improving and developing unique grass seed varieties for the professional turfgrass market. Now several decades later, Seed Research of Oregon continues to be a top innovator in the grass seed industry. Headquartered in Tangent, Oregon, Seed Research of Oregon is nestled in the heart of the Willamette Valley – the world's major cool season grass seed producing area. Willamette Valley seed growers meet the high standards of the industry and are well known for producing consistent, high quality crops.

Seed Research of Oregon focuses on the professional turfgrass seed. Our primary customers are turf and ornamental distributors located throughout the world. The company's distributor network services golf course contractors and superintendents, sod growers, landscape contractors, lawn care companies, school and parks boards, sports fields and garden centers.

**Eco Works Supply ~**  
**Doug Daniel, Duane Williamson, &**  
**Tony Klenske**

**612-868-9615**

Eco Works Supply started business in 2002 as Cycle Works of Minnesota. The name Cycle Works was used due to the supplier of products initially was Cycle Works, based in Colorado. Cycle Works Golf Supply has expanded its product lines over the years and it also has expanded to the sports turf and park and recreation marketplace a decision was made to change the company name to Eco Works Supply. That name was chosen because it reflects the focus on ecological friendly products and distribution to other industries besides golf. All products are still the same. All Cycle Works product names sold by Eco Works Supply are now labeled Eco Works. In 2011 an on-line company [www.ecoworksgolfsupply.com](http://www.ecoworksgolfsupply.com) was created to distribute the most popular turf products. All of the product information can all be found at the [www.ecoworkssupply.com](http://www.ecoworkssupply.com) web site.

Crop Production Services (CPS) was established in 1983, but predecessor companies began operating as early as 1859. A lot has changed since then. Advancements in technology allow for more effective growing methods while minimizing environmental impacts. We've welcomed more operations into our family and expanded our product and service offerings. Our reach has become global as we are now part of a network of retailers that spans three continents. Despite all those changes, we have never lost sight of the American farmers and the work they do. Decade after decade, we're here to provide the best technologies, tools and products so you can focus on what you do best - grow.

**Earthworks Carbon Based Fertility ~**  
**Kevin Hicks**

**(800) 732-8873**

EarthWorks manufactures carbon based dry and liquid fertilizers for the turf and ornamental industry. Our products have been used on top elite golf courses and sports fields in the United States and recently have been traveling overseas. EarthWorks products have been a focus for many lawn care companies and a leader with landscape installation and maintenance companies since 1988.

By balancing the chemistry and feeding the soil, changes can happen thus making the soil work better! For you it means reduced inputs and greater freedom from the whims of nature, as well as greater cost predictability over the long run. For your community, it means a legacy of beautiful, natural green spaces and playing surfaces.

We promote a deeper respect. For the soil, the landscape and the people. And that Respect goes deeper than any fertilizer.

**Gowan USA ~  
Dave Burkhardt**

**928-446-9928**

Gowan USA is 55 year-old family owned and operated business out of Yuma, AZ. Providing solutions to AG and horticultural growers, landscapers, and turf managers, Gowan brings a dozen products to the T&O market. Products for the AZ golf market include sedge control standard, SedgeHammer, SedgeHammer Plus as well non-selective, burndown herbicide Scythe. **Brandt ~  
Michael Steve**

**208-227-7034**

Grigg/Brandt has proven itself to be a valuable partner in the golf and sports turf industry since 1995. Their Proven Foliar™ liquid and GreenSpec™ granular fertilizer technologies are backed by many years of independent university research and extensive field trials. Grigg Brandt offers turfgrass managers and greenkeepers fertilizer solutions with unmatched quality, performance, and compatibility.

**Huma Gro Turf ~  
Michael Gardner & Kenny Halcomb**

**480-250-7519**

HUMA GRO® TURF is a line of products developed and manufactured by Bio Huma Netics, Inc. of Gilbert, Arizona. Bio Huma Netics started developing high efficiency liquid soil health and plant nutrition products in 1973. The Micro Carbon Technology® (MCT) that we use as the base of all our ingredients is proven to be many times more efficient than conventional fertilizers; several times more efficient than granular fertilizers and a few times more efficient than the highest quality chelates. The extremely small molecule size in our MCT makes the difference.

## **PBI Gordon ~**

**James Sorensen**

**(360) 623-3012**

Founded as Private Brands Incorporated (PBI) in the fall of 1947, our company was built on an attitude of basic honesty and forthrightness in all matters and a "bend-over-backwards-to-please" attitude towards customers. This was the approach of our founders, and from the beginning it gained the company the respect of the entire industry. Our commitment to quality in our manufacturing processes gained us private labeling contracts with many major firms in those early years.

## **Stabilizer Solutions, Inc. ~**

**Jim Hubbs**

**602-225-5900**

Soil moisture research has uncovered that the ideal playing surface requires 4-12% moisture to achieve natural binding for shear and load bearing strength required by the athlete. Simply put the ideal playing surface has a DAMP SOIL CONSISTENCY. Stabilizer Water Binding Technology keeps your field's ideal moisture content window open longer. It binds water and soil particles, maintaining stability during rain and releasing moisture into the soil when dry, providing a damp soil consistency longer. Please contact us at: [info@stabilizersolutions.com](mailto:info@stabilizersolutions.com)

**Syngenta ~  
Kimberly Gard**

**760-390-5117**

Syngenta Lawn & Garden North America, headquartered in Greensboro, N.C., is organized into three main customer categories: Turf & Landscape, Syngenta Flowers Professional, and Consumer. The organization's mission is to provide innovative, integrated solutions to enrich the living experience of its customers. In support of this mission, L & G NA conducts business in three key areas: chemical control products for use in turf, ornamental, vegetative management and pest control; genetics (which includes seed and vegetative cuttings); and growing media. While the majority of the organization is focused on golf courses, professional lawn care operators, and greenhouse growers, L & G NA also works closely with leading retailers to target the consumer market segment with innovative offerings.

**The Anderson Golf Products ~  
Bob Miller**

**916-408-7687**

The Andersons offers a great assortment of proven products with added value, featuring the exclusive Contec DG dispersing granule fertilizer. The Andersons also offers a line of foliar nutrients called Foltec which is the ideal complement to a Contec DG program for optimum turf health and color. Also check out the free TNT turf nutrition programming tool which can be downloaded at [www.AndersonsTurf.com](http://www.AndersonsTurf.com). The Andersons has product distribution across the U.S. and Canada, and in over 30 countries Internationally. The Andersons is a diverse agri-business headquartered in Maumee, Ohio. Since its founding in 1947, the company has expanded its basic grain merchandising services and has diversified into agricultural fertilizer blending and distribution, corncob milling, retail mass merchandising, lawn fertilizer production and marketing, and wholesale distribution of agricultural seeds and farm supplies. The Andersons has developed a reputation for being an aggressive and innovative firm built on creativity, commitment, service, and dedication. With over 30 years' experience in turf industry, The Andersons has developed the resources required to achieve its goals, as well as the goals of its customers.

## **The Catalyst Product Group ~ Mark Turner & Landon Turner**

**480-814-8318**

The Catalyst Product Group (TCPG) is a manufacturer of Humates (Humic and Fulvic Acid extracts), mined mineral extraction's, organic fertilizers, cotton harvest aids, organic fungicides, and all natural nematicides. TCPG has developed and successfully marketed the use of organic materials used to enhance the production of farmers, landscapers, home owners, and golf courses. With an environmentally health conscious consumer, the implications of stricter government regulations, these consumers are beginning to see the benefits of adding natural ingredients to current cultural practices in an effort to maintain the life and health of the soil.

## **Yara North America ~ Brinkley Williams**

**602-775-6103**

Founded in 1905 to solve emerging famine in Europe, Yara has a worldwide presence with more than 15,000 employees and sales to more than 160 countries. Yara can look back on 70 years of business in North America supporting the nutritional needs of plants and crops.

Yara's wide knowledge of turfgrass nutrition can help superintendents increase the health, beauty, and playability of their courses. Our fertilizer products, turfgrass nutrition programs and technologies are designed to provide golf course superintendents with the tools they need to achieve the best results on their courses.

## Sage Tree Care ~ Cliff Frink

602-329-1352

Cliff Frink, Owner: Cliff is a certified Arborist (certificate number: WE-7925A) and earned a BS degree in Agronomy from the Ohio State University. He started Sage Tree Care after a successful career in golf course maintenance where he managed some of Arizona's finest private and public courses. Cliff saw an opportunity to combine his passion for science and nature by providing outstanding tree care to discriminating clients.

Sage Tree Care Team: Sage Tree Care employs highly skilled and highly trained tree care professionals that share a passion for proper tree care. It is imperative for all employees to love what they do in the tree care business; the work is too physically demanding and it's too easy to take shortcuts. All of our employees start out 'dragging branches' for months and undergo intense hands-on training before being asked to prune or climb. All of our climbers understand the nature of each tree and how it is growing before they prune it.

## Solitude Lake Management ~ Bob Revolinski

888-480-5253

SOLitude Lake Management is dedicated to making water a more healthy and beautiful part of our world. In that pursuit, SOLitude offers sustainable solutions that improve water quality, enhance beauty, preserve natural resources and reduce our environmental footprint.

SOLitude's highly-trained team of scientists, biologists, ecologists and aquatic resource management professionals specializes in the development and execution of customized lake, pond, wetland and fisheries management programs that include water quality testing and restoration, nutrient remediation, algae and aquatic weed control, installation and maintenance of fountains and aeration systems, bathymetry, mechanical harvesting and hydro-raking, lake vegetation studies, biological assessments, habitat evaluations, and invasive species management.

## **Tree Theory ~ Craig Weinstein & Doug Long**

Tree Theory has a program specifically for golf courses to complement their #1 asset, their turf. Different from other Tree care companies, we do not trim or remove trees. Our approach is to improve your trees' health and vitality. Trees should be considered one of the most valuable asset of any landscape, often with a combined value into the millions. Knowing actual value can help support budget decisions & allocation of funds. In addition to treatment programs, we offer health assessments, tree inventories, and tree appraisals... not just replacement values, but true appraised values that can be used to support insurance claims should disaster strike.

With over 40 years' experience caring for trees and shrubs in the arid Southwest, our Senior Arborist ([WE-3474A](tel:480-848-9670)) is one of the top tree experts in Arizona. We understand your course's landscape. What's more, we understand your budgeting needs and can offer recommendations to help you get the most for your maintenance dollars.
