BEACH COMBER TIME

We have successfully simplified the entire process of sand play in an effort to make the experience easier and more enjoyable to the *palate*---even going so far as to re-name our 'sand hazards'. We felt that 'bunkers' and 'traps' were extremely negative terms and worked to conjure up less-than-savory images in the mind of the golfer---we now refer to them as 'sandscapes', and we are certain that with the combination of new skills and understanding, along with a new label, you will enter your next 'sandscape' with far more confidence, and leave it with far better results.
