Tough Day Results

This year's Tough Day tournament was quite a doozy. We had a record high field with 50 teams competing this year. The front nine was set up very easy and benign while the back nine was tricked out with longer tee boxes and unthinkable hole locations thanks to Purv. Our Gross Champions this year are the team of Chad Kunstel and Andrew Miller who fired a fantastic score of 63 to edge Richard Ryan & Michael Bryant by two shots! The Net Champions are the team of Mason & Ransom Lutz. We split the field in to two flights, the first flight was won by Jeff Pierce and Jamie Hennessy with a team net score of 62.15. In the second flight, the team of Cliff Leach and Richard Pentecost took home first place with a team net score of 62.65. Congratulations to all the winners and we appreciate everyone who came out to play!

Superintendent News December 2022

It's the time of year for frost delays. Once the temperature begins to reach into the 30's, I will leave a message on our Course Conditions line of what going on: if there is a frost or cover delay or not, and if its 90 degree or cart path only. That number is 770-448-2008 and press 1 for Course Conditions. It is normally updated a few minutes after sunrise. We all know what a frost delay is, but what would cause a cover delay? When we cover, normally it means the nighttime temperature is dropping into the 20's. If it's in the 50's during the day, there is a chance we will not cover and just let the greens get frosted up. But if the night is getting into the 20's and the day is in the 30's and 40's, there is a good chance we will put the covers on that afternoon to capture as much heat as we can before night. The other variable we judge by is frozen time. How long is the temperature going to be below 30 degrees. It's a guessing game. The University of Arkansas has been working on this for 15 years. Their data shows that there is not any damage until you get around 14 degrees, but I will not take that chance. It being their first year, we will be more protective of the young grass; and as the greens age, we can be less protective as they adapt to their environment.

You have any questions, please ask.

Holiday Gathering, Thursday, December 8

The BHSMGA is promoting a Holiday gathering again this season for its members. Last year we did the same and we had 25 members and spouses gather for some camaraderie. The association will contribute two (2) drink tickets for beer or wine to any member who attends. We will meet beginning 6pm at the bar in the grille room, and migrate for dinner (order for yourselves off the menu) about 7pm where we have reserved the dining area adjacent to the grille. This is a good opportunity to meet socially with our spouses or partners, and we hope to see you then. Please email Harvey Gammon your intent to attend (yes, no, or maybe, and/or stay for dinner), so we can give a head count to the kitchen. harveygam@gmail.com
