

Greens Aeration

Sept. 21st, 24th & 25th

Sept 21st—3 greens on the back nine will be aerated at some point during the day. Temporary greens will be in play for those holes

Sept. 24th - The front 9 will be open on regular un-aerated greens, while we aerate the back 9. Play 18 holes by playing the front 9 twice.

Sept. 25th - The back 9 will be open on aerated regular greens while we aerate the front 9. Play 18 holes by playing the back 9 twice.

Below is aeration discounted pricing for 18 holes:

(Mon) Twilight Rate All Day (**\$22+tax**) Front 9 only on un-aerated greens

(Tue) Super Twilight Rate All Day (**\$17+tax**) Back 9 only on aerated greens

(Wed) Super Twilight Rate All Day (**\$17+tax**) All 18 holes on aerated greens

Greens aeration will be done at both our City of Everett golf courses during the month of September as at most facilities in the pacific northwest. The aeration of our greens is good for their health and helps ensure quality playing conditions through-out the year. *We appreciate your patience!*

Walter Hall Greens Aeration: Was done Sept 10th & 11th

Tee and Fairway Aeration - September/October

Tees and Fairways will also be aerated as weather permits. Approaches to greens and Tees will be started in Sept. and Fairways in Oct. This is good for the health turf in the summer and keeps our tees and fairways dry in the winter. Fairway aeration is done one or two holes at a time and results in almost no disruption of play. Tee aeration has minimal to no effect on your play.

When the fairway and green surrounds are aerated, if your ball ends up in one of the aeration holes or sanded areas you may take best relief available (lift, clean & place) for no penalty within one club length, no closer to the hole.
