## FAVORITE RECIPES

Here are a few appetizer and dessert recipes that should spice up and tame your sweet cravings this Memorial Day Weekend

### Buffalo Chicken Dip

#### Ingredients

8 oz. pkg. cream cheese, softened  
 1/2 cup blue cheese or ranch salad dressing  
 1/2 cup of buffalo Wing Sauce  
 1/2 cup crumbled blue cheese or shredded mozzarella cheese  
 2 cans (12.5 oz. each) of white premium chunk chicken breast in water, drained

#### Directions:

HEAT oven to 350°F. Place cream cheese into deep baking dish. Stir until smooth.

MIX in salad dressing, Buffalo Sauce and cheese. Stir in chicken.

BAKE 20 min. or until mixture is heated through; stir. Garnish as desired. Serve with crackers or vegetables.

### Berry-Topped White Cupcakes Recipe

#### Ingredients:

- 5 egg whites
- 1/2 cup plus 2 tablespoons of butter, softened
- 1 cup of sugar, divided
- 3/4 teaspoon vanilla extract
- 2-1/4 cups cake flour
- 2-1/4 teaspoons baking powder
- 1/2 teaspoon salt
- 3/4 cup milk

#### Icing:

- 4 ounces of cream cheese, softened
- 1/3 cup butter, softened
- 2 cups confectioners' sugar
- 1/2 teaspoon lemon juice
- Assorted berries

#### Directions:

- Place egg whites in a large bowl; let stand at room temperature for 30 minutes. In another bowl, cream butter and 3/4 cup sugar until light and fluffy. Beat in vanilla. Combine the flour, baking powder and salt; add to creamed mixture alternately with milk, beating well after each addition.
- Beat egg whites on medium speed until soft peaks form. Gradually beat in remaining sugar, about 2 tablespoons at a time, on high until stiff glossy peaks form and sugar is dissolved. Fold a fourth of the egg whites into batter; fold in remaining whites.
- With a spoon, gently fill foil- or paper-lined muffin cups two-thirds full. Bake at 350° for 18-22 minutes. Cool for 10 minutes before removing from pans to wire racks to cool completely.

For icing, in a small bowl, beat cream cheese and butter until smooth. Gradually beat in confectioners' sugar and lemon juice. Frost cupcakes. Top with berries.

The numbers 1-9 have to be in each box, row and column. So if you have one with 8 numbers, you can work out the last one. And you can see where a number goes in a box if it's in that row or column, you can't put it in that row or column in the box.

At a family reunion were the following people: one grandfather, one grandmother, two fathers, two mothers, four children, three grandchildren, one brother, two sisters, two sons, two daughters, one father-in-law, one mother-in-law, and one daughter-in-law. But not as many people attended as it sounds. How many were there, and who were they?

Riddles of the Month:

1. Throw it off the highest building, and I'll not break. But put me in the ocean, and I will. What am I?
2. What can run but never walks, has a mouth but never talks, has a head but never weeps, has a bed but never sleeps?
3. You use a knife to slice my stem and weep beside me when I am dead. What am I?

there were two little girls and a boy, their parents, and their fathers, totaling seven people.

# TIPS FROM OUR VENDORS

Are you prepared for a hurricane?

Some homeowners have been wondering how to properly prepare for our 2013 Hurricane Season, so Denise Thoman from Allstate gave us some helpful tips!

Hurricanes are a devastating force of nature. A typical hurricane can produce 6 to 12 inches of rainfall, wind gusts up to 100 mph and storm surges that can swallow an SUV. That's why it's important to prepare ahead of time.

Ideas to help you prepare for a hurricane:

- Step 1: Check your insurance coverage
- Step 2: Do a home inventory.
- Step 3: Protect your property
- Step 4: Stock your emergency supply kit
- Step 5: Plan your evacuation

### Recommended items for emergency supply kit

- One gallon of water per person per day for at least 3 days
- 3-day supply of non-perishable food
- Battery-powered or hand-crank radio and a NAA Weather Radio with tone alert and extra batteries for both
- Flashlight and batteries
- First aid kit
- Whistle to signal for help
- Plastic sheeting and duct tape
- Moist towelettes, garbage bags and plastic ties for personal sanitation
- Wrench or pliers to turn off utilities
- Can opener for food
- Local maps
- Cell phone with chargers, inverters or solar charger
- For complete list: [ready.gov/america](http://ready.gov/america)

### Weather Center Special Cautions

Hurricanes can span 300 miles and travel between 10-20 mph in a predictable manner. But they can also stall (stay in place) or accelerate up to 60 mph taking unexpected turns. To help you better prepare, weather centers have created these special cautions.

Hurricane Watch- Be on alert

Within 48 hours, hurricane conditions are possible in the specified area.

Hurricane Warning- Take action

Within 36 hours, hurricane conditions are expected somewhere within the specified area.

### When you evacuate your home:

- Turn off the gas, electricity and water in your home
- Empty your fridge and freezer
- Prepare your home for possible flooding by moving valuables to an upper floor or high shelf inside your home
- Call a friend or relative and tell them where you are going
- Leave as soon as possible to avoid flooded roads and traffic jams- take your emergency supplies with you.

### Making a claim after a hurricane:

While insurance policy can help safeguard your financial health, it can't prevent a major catastrophe from occurring. These steps can help make the claims process a little smoother.

- Contact your insurance provider after the storm has passed
- If your home is safe to enter, take photos of any damage before cleaning up or throwing anything away and review your home inventory
- Begin making temporary repairs to help prevent further damage and keep track of receipts
- Schedule an appointment with an adjuster to have them inspect your property
