

2014 Junior Program - \$175

Recognizing that golf can be a lifetime sport with the ability to positively influence a child's life, the promotion of junior golf is an important goal at Heron Lakes Golf Course. The Heron Lakes Junior Program hopes to generate a better understanding and appreciation for the sport, enhance performance in every facet of the game, and help a child's self confidence grow.

The Heron Lakes Junior program is a six week instruction program intended to help juniors of all abilities. After the initial two sessions of instruction, every student will play (up to 9 holes) on the golf course *every other week*. Instruction follows play on each of those days. Green fees are included. Each junior is responsible for his or her own clubs. Lunch will be provided by Heron Lakes on play sessions (as noted on the schedule below). The final session includes a pizza party and awards ceremony after the **Junior Club Championship**. Registration is open to the first 100 juniors Ages 9-17 (exceptions can be made for younger students if they have previous experience and accompanied by a parent or guardian).
