Three Tee Scramble

Saturday, February 27th, 2021

- Each team consists of four players.
- In regular scramble fashion, each team member hits a tee shot. The best tee shot is chosen and each team member hits a shot from within one club length of the chosen shot, (no nearer the hole, not out of any hazard, and not onto the green). This process is continued until the ball is holed out. **Note:** Do not tap in any putts that end up near the hole because once the ball is holed, the hole is over and no further shots may be attempted.
- Each player is required to have at least **two of their drives** and at least **two of their second shots** used during the round. **Note:** A putt may count as a second shot.
- **Flagstick Removal** – While we still strongly recommend leaving the flagstick in at all times, new pandemic-based policy does allow for flagsticks to be removed when putting.
- Team handicaps will be computed by taking: 25% of low, 20% of 2nd, 15% of 3rd, 10% of highest handicap player.
- Men's Tees
