

Pardon Our Mess

Over the next few months the City of Modesto will be working on the Shackelford Crossing Project. The project will consist of building two sewer lines beneath the Tuolumne River. Due to this construction Hole Two at Dryden Park will be played as a 265 yard Par 4. Please note that we do have a temporary course rating to reflect this change so you may post scores as usual. We apologize for any inconvenience. Thank You for your cooperation and understanding during this project.
