Mike has performed this crowd pleaser all over the world. He uses a six-foot driver, rubber shafted wood, multi-jointed clubs, double headed clubs, all with the greatest of ease.  
Mike will demonstrate his mastery of the swing by hitting balls left, right and cross-handed, while sitting, kneeling and standing one-legged on a chair driving a ball well over 230 yards from atop a ski pole. Mix this fast-paced demonstration with his light dialogue of golf humor and you have a program that's thoroughly enjoyable for golfers and non-golfers alike. A must for corporate outings!
