## *Your Success — Our Passion*

Golf Outings are fun – planning golf outings can be a challenge. With over a quarter century of professional golf outing planning experience we're here to help you be a success. Your event is a reflection on you – it's our passion and priority to make your event reflect positively on you and your group or organization.

From the time that you and your guests arrive at Bear Creek you'll notice an attention to detail that will set the tone for the day. Each element of your outing will be prepared and ready to go upon your arrival, and each Bear Creek associate is there to make your day run smoothly. Plus, a golf professional will be managing the event throughout the day. All you'll need to do is enjoy the experience.

### **Quality, Value and Convenience**

With Bear Creek you get the quality of a professionally run event that is customized to your specific needs at a price that represents an excellent value. Our first priority is meeting and exceeding your expectations, as well as those of your guests. This starts with planning an event that is built to your group's needs. Every event includes our professional outing management services at no additional cost. This includes scoring, registration, cart signs, and other services that many golf courses do not include. From 36 or 18 hole shotguns to special 9 hole events, we can plan and host any outing while meeting your budget.

Just leave the details to us – we'll take the challenge out, and put the fun into your outing plan.
