

Platteview Golf Club is looking for a self-motivated and reliable equipment manager who reports to the golf course superintendent and oversees the comprehensive preventative maintenance program that ensures equipment fleet is in excellent working condition. The fleet consists of Toro, John Deere and Jacobsen. The maintenance program includes the repair of maintenance equipment and vehicles as well as tractors and a skid steer. The qualified applicant will have working knowledge of both small and heavy equipment and be able to work on small engines, both gas and diesel. A major focus will be on the maintenance and daily preparation of cutting units. The equipment manager should have a strong work ethic that places a high priority on safety. The candidate will be responsible for a clean and organized service area and maintenance building. The selected individual may also be assigned any other tasks necessary for the club's operation as deemed necessary.

Requirements

- Diagnose and perform any and all major or minor repairs in a timely matter.
- Education in small engine repair a plus, but not required.
- Perform preventative equipment maintenance.
- Parts purchasing and inventory.
- Involved in devising repair and maintenance budget as well as the capital equipment replacement program.
- Maintain a clean and organized work area and shop.
- Involved in training staff to properly operate all equipment.
- Grind, sharpen, and prepare reels for daily use.
- Ability to work weekends, holidays, during selective events and critical times.

Compensation

Hourly pay will be \$15-\$16.50 per hour based upon experience.

Benefits

Insurance, paid time off, golf, uniforms and discounted meals.

Closing Date for applications and Resumes is May 1st, 2019.

Please send your resume to Stephen Prasch at spasch@platteviewcc.com and/or call 402-305-6737. www.platteviewcc.com.
