Adjust edge of green to improve drainage and create more variety in shape of green.
Construct new Red tee
Construct new Gold tee
Widen existing white and blue tees
Construct new Red tee
Construct new cart path
Remove portion of cart path
Re-pave portion of cart path
Relocate portion of cart path
Construct new greenside bunker
Plant new trees to help hide road
Construct new fairway bunker
Convert to no mow area
Plant new trees
Construct new Gold and Red tees
Construct new white tee
Construct new blue tee
Rebuild bunker and lower high ridge on west side.
Construct new Blue tees
Construct new alternate Blue tee
Construct new Blue tee
Construct new protection berm with new tree planting
Construct new Red tee
Construct new Red tee
Adjust fairway mow line to the north
Plant new trees
New tee complex for Hole #17
Construct new fairway bunker
Construct new greenside bunkers
Plant new trees between #13 and #15 greens.
Plant new trees between #13 and #15 greens.
Re Build existing tee and shift south
Rebuild new white tee to the south
Construct new greenside bunker short of green edge
Plant new trees between #13 and #15 greens
Construct new greenside bunker
Construct new fairway bunker
Clear opening by removing trees and/or limbs
Clear opening by removing trees and/or limbs
Clear opening by removing trees and/or limbs
Construct new greenside bunkers
Plant new trees
Plant new trees
Construct new tee complex for new par 3
Expand parking lot
New cart staging areas with landscaping along tunnel
Relocate Blue tee and cart path
Construct new white tee
Construct new Gold and Red tees
Add Trees to help screen parking lot
New green complex should be created for improved character, aesthetics, strategy, etc.
Relocate cart path around new creek
Create new creek channel along side of hole and green for new par 5.
Re-route cart path to new #9 tee
Plant new trees
Construct new short game practice area including putting, chipping and pitching
Construct new Blue/White tee for new par 5
Construct new fairway bunker
Plant new trees along roadway
Plant new trees along left side of new fairway
Remove trees to shift fairway to north
Remove and relocate a portion of cart path
Rebuild two greenside bunkers
Expand putting surface
Create wetland adjacent to green
Construct berm to protect flooding of cart storage
Re-route creek
New DR tee
Adjust fairway mow line to the north
Adjust fairway mow line
Remove Berms
Remove this section of cart path
Construct new Gold tee
Construct new Red tee
Construct new route for creek to become more of a strategic feature and remove fairway bunker
Construct new walking bridge
New cart path
Construct new Gold tee
Construct new Red tee
Remove trees for new par 5 fairway
Construct new Gold tee
Construct new Red tee
Construct new Blue and White tees for Hole 9
Construct new nursery putting green
Old Hole #5 to become range fairway
Range
Construct new Blue and White tee for par 3
Construct new Red tee
Construct new Gold tee
Construct new green complex for par 4
Adjust fairway mow line
New fairway and green complex for new par 4
Potential new residential lots
Construct new fairway bunker and relocate 2 Pipe trees
Construct new White tee
Construct new Blue tee
Construct new greenside bunker
Remove bunker
Adjust fairway mow line
Construct new Red tee
Construct new Blue tee
Construct new Blue and White tees
Construct new cart path
Construct green complex and fairway for new par 3
Construct new cart path
Re-use ex. Red tee
Re-level ex tees as #8: White and Gold tees
Remove cart path and use path on left side of the green.
