New to joining a club? If you join our club you will get your USGA/GHIN Handicap which will allow you to compete in our events as well as numerous other events throughout the country. Getting your handicap doesn't mean you have to play in events for competition. You can use your handicap to try and beat the course and measure improvement in your game. The GHIN system (**G**olf **H**andicap & **I**nformation **N**etwork) will calculate an official handicap once **you get 5 scores** in the system (please ask a pro shop staff member or a club committee member if you need help on how to post scores or visit the USGA website <http://www.usga.org/HandicapFAQ/handicap.asp>). If you have more than 20 scores the USGA/GHIN will calculate your ten best scores of you last 20 posted scores. Your handicap will be higher or lower than your index because your handicap is calculated by applying your handicap index to the slope rating for the tee of the course you are playing. The system is designed so that you should only shoot your handicap 25% of the time. Playing in events is fun and not much different than your normal round of golf with your buddies. The biggest difference is now you can be rewarded for playing well. Come out and try it, you can play for fun or in the competitions...the decision is up to you!

A membership application is enclosed as well as a schedule of events. Please mail your completed form or bring with you the next time you are at Cedarcrest Golf Course. We encourage you to forward this invitation to join our club to friends or neighbors who might be interested.
