**\*\*Take Care\*\***

**Fix ball marks, 90 degrees, Trash in cans  
Pick up used Tees**

## TURF TALK

The summer heat is on. Remember that we will be watering greens as needed to beat the heat during afternoon hours. Though inconvenient, it is an essential practice on cool season grasses that helps the turf survive during periods of heat stress.

Another agronomic issue that we will continue to discuss is the **90 degree cart rule**. Please adhere to it! This simple practice will reduce cart traffic on fairways and result in a noticeable improvement in overall course conditions. Improperly driven carts result in extensive and unnecessary damage suffered annually. Recent rainfall has helped with course green up as we prepare to fertilize fairways and tees.

It looks like we dodged the *Brood X Cicadas*! Fear not we got plenty of them about 20 miles north of Lee's Hill. My commute this past month was punctuated with windshield splats. Fair well Brood X, see you guys again in 17 years! We still have plenty of other Cicada species in our area that will provide food for the Cicada Killer Wasps that we will witness shortly. Fortunately they are generally harmless and only sting when harassed. We will do the best we can to control them this summer.

Hope you have enjoyed an early kickoff to summer and we will see you soon on the course!

John Burns, Superintendent

## 90 Degree Cart Rule: Important (please read)

At this time of the year, it is extremely important to enter the fairways at 90 degrees to the ball from the path in order to help not wear out the turf at the beginning of each fairway once leaving the tee box. Your help and attention to this matter is most appreciated.

## No Fishing!

While we understand the ponds are very attractive to those that like to fish, it is very dangerous to fish on a golf course. No Fishing is allowed and if you see anyone fishing, please report it to the Pro Shop. The Golf Course, Lee's Hill, accepts no liability to those that get injured while fishing on the golf course.
