TURF TALK - John Burns, GCS

Hard to believe the holidays are upon us. Our winter project list is well underway.

Water cooler stations have been removed from the course and will be refurbished as needed prior to re installation in the spring.

Trash can bins are being repainted along with tee markers.

Additional bird houses are being installed on the course to add to our existing inventory.

Soil and water testing will also take place this month in order to fine tune our golf course fertility programs.

Pond bank cleanup and strategic tree trimming will also commence shortly.

Again this winter we will be working on adding sand and drainage to bunkers. New rakes have already been purchased and will be used for play next season.

Please continue to adhere to the

90 degree cart rule when

applicable as well as divot filling and ball mark repair. It is difficult to understate how important these practices are when it comes to overall course conditions. Wishing you and yours a safe and healthy holiday season!
