Canyon Lakes Golf Course
November Newsletter

Frost season has arrived and we want to remind all golfers to visit our website to learn what schedule the course will be on for the day. Go to canyonlakesgolfcourse.com, and there is a hover add that will drop down and let you know in the morning what the conditions are here at the course. We ask for all players playing in organized groups such as Ladies play, Ball Bangers and Mens Gangsomes to be here on time. This helps us to manage tee times and groups. With daylight ending around 5pm now, we ask that all rental carts are returned by 4:40pm. This will move in time as daylight gets earlier or later.

From the Maintenance Department: We ask that as the weather cools and the grass gras, that golf carts stay on cart paths as much as possible. This includes handicap carts as well. With grass not regenerating it is crucial to not park carts within 15 feet of greens, especially in front of greens where all players try to play their ball to the green. Help us preserve the great conditions we are enjoying right now for as long as possible. This includes following the directional signs and staying out of areas roped off. Please either replace divots or fill with sand when playing and make sure to fix yours and at least one other ball mark on the greens. Please rake all bunkers as well. The golf course is amazing and we are just asking your help with keeping it that way as the colder weather approaches.

We try to update the online calendar with any changes, so looking online is the best resource to show most current activities and times. It is a very useful tool for our members and public players. We normally publish the next months calendar by the 20th of the prior month.
