Torres game has improved dramatically since she started to play golf almost five years later becoming a very competitive athlete thanks to the support and dedication of her parents & family, and the advice and coaching by a very special group of people and organizations including the **Puerto Rico Golf Association**.

Among her most recently accomplishments it must be mentioned her title as the 2011 Junior Amateur Champion she won back in May and for the second year in a row and her participation as a member in the various international team events that Puerto Rico participated in during the summer, including the **USGA's Women State Team Championship**. In 2010, she was also part of the team who represented PR at the **World Amateur Team Championships**, in Argentina.

Her shy but honest smile and public speech, is maybe the best way to hide her competitiveness, dedication and love for the game of golf she once traded upon making a career as a horse rider at a very young age. Her future has many other wins and accomplishment awaiting.
