A Short History

Established in 1926 as a 9-hole golf course, additional property was purchased in 1957 and the course was expanded to 18 holes. A new pro shop, swimming pool, and deep water dock were built at that time. The club house was completely remodeled in 1989 and is listed on the Thurston County Heritage Register.

The golf course is continuously upgraded with new drainage and has a recently installed irrigation system to provide good year-round playing conditions. The greens crew is capable of adjusting the course for difficulty of play as golf events require.

Famed golfers have played our course. Bud Ward, many time state and national amateur champion, started his golf career on this course. Byron Nelson once scored a 59 playing our links. He later returned for a nostalgic visit and played another fantastic game. When asked why he was back, he replied, "It was the only course I've shot 59 on!"

In 2012 the Olympia Country & Golf Club was purchased by long-time member, local doctor, and business woman, Angela J. Bowen. Dr. Bowen is funding construction of a new club house and pro shop commencing in 2013, with completion scheduled for December 2014.
