Mission Statement for Facilities Committee – CPTC

The primary mission of this Committee is to ensure the club maintains a facility that is safe, comfortable, attractive and supportive of the needs of our members. We will accomplish this Mission by adhering to the following objectives:

1. Developing and maintaining an Asset Maintenance and Replacement schedule allowing the Club Management to plan for and determine both short and long term facility needs.
2. Provide regular input to the Board and Club Management regarding facility improvements, replacement and maintenance.
3. Be available to Club Management and Members as it relates to facility issues and bring these issues to the Board as necessary.
