Spring Rules Reminders

As the golfing season gets underway what better time to remind our members of a few Club rules.

- Pace of play at Berkeley Hills is 4 hours or less.
- Walkers may hop on a cart only from 14 green to 15 tee. Any other time walkers will be charged a "hop on" fee.
- Children are able to use the clubs as members until the age of 24 or at the time they graduate college, whichever is first. After that time they are considered guests and may only use the Club as your accompanied guest.
- The dress code for the course and practice facility requires shirts to be tucked in and caps to be on forward.
- Pull carts and electric pull carts are not allowed across any putting greens.
- At no time should your bag be placed on the green.
- All scores are required to be posted. The Handicap Committee will be reviewing score posting this Spring and will adjust handicaps as necessary.

Superintendent News April 2021

It's that time of year that everything is beginning to bloom. We have scalped down the fairways, the approaches, and the tees. Next, we will mow the roughs. As we all know, the removal of the dormant grass, helps with the green up. This year I am going to do something a little different with the amount of rounds that we are playing. We will continue to mow the roughs at 1', the fairways and approaches at 3/8", and majority of the tees at 3/8". We are going to mow the Par 3 tees at .600, which is a notch above a half an inch. I want to see if that will help with divots and how quick they heal up. Let's see how that goes.

Sometime this month, the contractors are going to arrive and construct us a bunker between the lake and the fairway on #17. Our plan is to have a similar shape to the fairway bunkers at TPC Sawgrass.

Here is our plan for #17 green and the weak areas in the low spots that held water on the greens. We aerify on May 10th, it takes about 3 weeks to get a good root down if I need to re-sod. By mid-April, if 17 and the low areas do not look any better or not going to heal up, we will take the grass off the nursery and go to 17 first and put new grass on it. If we have any grass remaining on the nursery, we will then go to some of the wet areas and do as much of that until we run out of grass. This gives us the best chance of rooting so when we aerify it, roll it, and sand it, it should recover and roll very well. Those 3 weeks leading up to aerification, it will be bumpy. Since we are establishing new greens next year, we might as well utilize our nursery green.

For the worn out tee boxes, we will be prepping out certain tees to put Zorro Zoysia on. It is a combination of all different color tee boxes.

We have a busy April coming up for us, thanks for your patience as we make Berkeley great again.
