## Superintendent News March 2022

The irrigation installation is finished!! We will continue our clean-up of the trenches and rocks. March 2nd, we will begin to give each sprinkler head a station number and start to program the system. Once we are finished, I will choose a Monday to set up a program to run during the day to watch everything turn on and off. Down in the maintenance building, we now have a complete drawing of the irrigation system. With some of the warmer weather coming in, we should begin to see the grass starting to green up. This will help us to know where we need to repair or let grow back. With this warmer weather will come pos annua and other weeds. We will spray all the greens, tees, and fairways with a product to suppress them, and we will spot treat the roughs where needed. On March 23rd, we are scheduled to pre-emerge the entire course.

If you have any questions, please ask.

Chris Purvis
