

## Cheryl Mahan – Teaching Professional

Cheryl promotes learning the game of golf through solid fundamentals, building on each individual's natural athletic skills. Because of its perplexity, golf challenges us to set attainable goals. She will show you how to reach your potential with positive and easily repeatable actions rather than tired restrictions like "keep your head down" and "left arm straight." She encourages her students to discover aspects of the game they can successfully replicate while mastering new techniques that can be confidently applied to an improved golf game.
