Career opportunity as a mechanic in our Commercial Turf Division

Midwest Turf & Irrigation is seeking a mechanic to work in our commercial turf shop. The position requires an ability to diagnose and repair commercial turf equipment. An experienced mechanic is preferred, but we'll consider a mechanic who is learning the trade. We have a collaborative shop with several mechanics who are always willing to share their knowledge and experience with someone who is learning the trade.

Midwest Turf & Irrigation provides a great working environment for its many long-term employees. The benefits include: training, health & disability insurance, 401K match & profit-sharing, generous vacation days & holidays.

Please send your resume to:
