Career opportunity as a service technician in the golf irrigation division. Midwest Turf & Irrigation is seeking a service technician in the golf irrigation division. The technician will be responsible for repairs and upgrades involving Toro golf course irrigation systems. The position requires an ability to create a partnership with industry professionals by being a resource for their irrigation needs.

The technician needs to display a high standard of professionalism and ethics while representing Midwest Turf when troubleshooting repairs and upgrading systems. The service area will include Nebraska, South Dakota, and western Iowa.

Midwest Turf provides a great working environment for its many long-term employees. Benefits include training, a company truck, expense account, health care and disability insurance, 401k match and profit sharing, and generous vacation days and holidays.
