

## Important New Booking rules.

Starting October 2019

These rules are here to ensure everyone has the same chance at a court in the lottery. Abuse of the rules will lead to lottery requests being deleted and possible membership suspension.

1. If you place a request and are successful, you will not be able to delete this court in order to play on another court that evening.
2. If you are successful with a singles booking in the lottery, you will be expected to play singles and not doubles.
3. Members must always enter the full names of the players expected to play. This includes the full name of guest(s).

Reports have been developed to help us more easily track the cancelling and editing of bookings. Fair and transparent play for all members is our goal.
