## Maintenance Crew:

WOW! May is here and the maintenance staff is quite busy. Please continue your outstanding job of fixing divots with the sand and seed bottles located at the first tee. I know this for a fact, by how many times we are needing to refill the sand and seed container. My only concern is that the Club has purchased another 30 sand and seed bottles. That's 90 bottle in the last three years and at \$10 a bottle that's a pretty big expense but the ownership definitely feels it's worth the cost. If you have extra bottles in your cart or in your garage please bring them back to the sand and seed rack. Again, thank you for being a part of making the course better. Your help is much appreciated!

- \* Groups of 4: any additions, the player needs the permission of the pro shop in advance (pace of play is important with the season in full swing).

**WITH COVID:** after you are done hitting range balls on the driving range please leave the buckets there!
