Turf Talk December 20, 2021

As another year comes to an end, we'd like to thank all of our loyal customers for another successful golf season here at Lee's Hill. Leaf removal is now complete and it's time to move on to other projects. As you have noticed, we are currently working on pond bank and native area trimming. These areas need yearly maintenance in order to promote turf growth, optimize playability and maintain aesthetic appeal.

A total of 50 birdhouses have been installed on the course to promote the habitation of additional bird species. Thanks again Jim for your hard work and dedication in assembling and painting these outstanding houses.

Tree removal will continue in strategic areas as we have removed several problem species throughout the course. Soil and water tests have been taken and are currently being evaluated at the lab. These impending results will determine maintenance strategies for next year and beyond.

You will also notice an occasional hole in a fairway or two, which is indicative of ongoing irrigation repairs. Wishing everyone a very happy and restful holiday season and we are looking forward to seeing you on the course in 2022.

John Burns, GCS
