# UNBELIEVABLE! YOU'RE KIDDING!

Enough is enough already!

Yea....you need to read this because we cannot make this stuff up! Remember how we politely requested your response to the survey? Well...we had a response rate almost 60%!!!!

**ASTRONOMICAL NUMBER! THANK YOU!**

The survey response rate we hoped for was about 35%. We now have a mega amount of data to review and read for action plans in 2021. During the month of November, management will develop a report for the Board of Directors with a summarized version being made available in a special report for the membership in early December.
