NOVEMBER 2020

 **The Current**  
River Hills Country Club

Dear Members:

Thank you for an awesome response rate on the recent survey. Any survey would be considered a good one with 25 - 30%. When you get a response rate of about 60%; that is really **considered astronomical!**

Over the next few weeks we will be perusing the survey results to make action plans for 2021 and beyond. This information offers quantifiable, qualifiable and thousands of constructive comments that will result in at least a dozen concentrations for 2021. Each of the words on the blackboard qualify as tactics towards the big goal of successes.

Once we have culled through all of the information; I will meet with the Advisory Committee to discuss 2021 focuses. In advance, I will have already issued a report to the Board of Directors. **A summarized version will be sent to all club committees and Members thereafter.**

Patience has been a factor since day one. The fruits of our shared labors are now producing improvements we expected could happen. The pandemic will be seen as a speedbump in the future. It slowed us down, yet we have seen many successes.

We will have new beginnings, progresses and successes in the future as we focus on being inviting, distinctive and dynamic. We do not believe "cookie cutting" as a method of growing. We will not sacrifice quality. We believe in being distinctive and dynamic.

Membership growth and dues creation will always be our #1 goal. That will continue to occur as the current membership not only drives the culture but also supports it. We are a small business in the big scheme of things. Our shared culture development and your support drives us forward

## Clubhouse Art

“Roseate Spoonbill in Flight”

John Costin

John Costin is a nationally acclaimed artist who resides in River Hills with wife Janet. John has graciously put a few of his fine works on loan to us in the clubhouse. These are truly fine art pieces and museum quality as his works already adorn a few across the country. Major entities such as IBM, General Motors, Raymond James, Mayo Clinic, Moffitt Cancer Center, Tampa Museum of Art and numerous universities have John’s works prominently displayed in their collections.

John is an avid and expert ornithologist with a primarily love of those in Florida. He does not have to see a bird to identify them as their calls are unique and he knows most if not all.

Currently, we are looking into opportunities for John to share his love of wildlife with our Members and especially kids. Having a nature trail that rivals national park quality is truly an asset to River Hills!

The loaned artworks certainly add a distinctive look to the clubhouse and we thank him! There are other high quality artists in River Hills. Look for us to invite some others soon.

Margie Martin | Membership Director

The image above represents a great comparison to the year here at the club. As we all patiently waited for the renovations, restoration and refurbishments of the amenities; we were abruptly halted in March with the pandemic.

Almost everything screeched to a halt or slow crawl. Banquets and outings dried up overnight. We had yet to rebuild the tennis courts. The new pump system installation took 4 months to complete from approvals and not many people were looking for memberships. The months of March and April were very tough. In May, Governor's Orders started to relax and did more so in June and July. Memberships started increasing as did golf play.

It is just now that outings, weddings and special functions are starting to get booked and rebooked.

Lo and behold came our membership drives that started in May and will be ending at the end of this month. Everyone's patience is now paying dividends. Tennis and golf activity are flourishing and yet we have plenty of room for more!

With all the turmoil of the past year hopefully staying in the rear view mirror we are poised for a great 2021!

We are setting very lofty goals for 2021 for our membership growth from both within River Hills and in the local community. All residents are certainly already Members with opportunities to get more involved with tennis and golf: especially kids of all ages.

We are true believers that higher standards come with growing expectations and we are planning to expand services, products and value for the all members in 2021.

As you know we truly believe that a primary duty of ours is to nurture the culture that the membership builds. That is true every year. One of our focuses through the survey is to measure satisfaction ratings as they lend to the retention of current members and attraction of referrals and future members.

The club must continue to gain new Members. We know from national statistics that approximately 7.5% of our membership will leave each year primarily due to personal factors. That void requires a 1:1 ratio to maintain dues levels.

MEMBERS are the most important tool in the attraction of new Members. The club NEEDS your referrals today, tomorrow and throughout the year. That's how the membership will be have the power to influence a culture we all seek.

What country club, tennis club or other facility in Florida can boast that their professional is the 2020 USTA 9.0 Men's Doubles Champions team (Ages 55+) & the 9.0 Mixed Doubles Champions team (Ages 40+)?

**That would be River Hills Country Club and our very own Iggy Molina. Iggy and his partners won two state championships over the past month.**

# greenspace

It's finally starting to cool down a little as you can see by the color of grasses starting to turn as they ready themselves for dormancy over the winter months. This will give us some more opportunities of our practices to get rid of more weeds that survived a multitude of spray applications this past summer.

There are a few special requests to golfers as we approach the colder months where you can help us. It is very important to fix as many ball marks on greens as possible. Turf on greens will grow very slowly over the colder months but it cannot recover as quickly as when it's hot. Ball marks that are not fixed will turn brown for months. Please fix ball marks all the time and in the correct manner.

Sanding divots - bare open ground in the winter are weed attracters that dig in before the spring. Par three tees are especially susceptible.

Our crew is very proud of the results from the past year. It has been a long one with no rain in the spring and then too much this fall. After one year, we feel we are 65% into our two year plan of regaining stature as one of the best in Tampa. Any help you can provide is greatly appreciated. And to the GOOD GUYS; you are true examples of gentlemen that care and we thank and applaud you!
